The Geological Society of America Bulletin

Volume 103

Contents

JANUARY

1–21 Origin and morphology of limestone caves
Arthur N. Palmer

22–36 An example of an accretionary forearc basin from northern Central Anatolia and its implications for the history of subduction of Neo-Tethys in Turkey
A. Koçyiğit

37–47 High-Mg, low-Al bulk composition of the Talkeetna island arc, Alaska: Implications for primary magmas and the nature of arc crust
Susan M. DeBari and Norman H. Sleep

48–55 Stratigraphic effects of change from internal to external drainage in an extending basin, southeastern Nevada
W. H. DiGuiseppi and J. M. Bartley

56–72 Igneous petrogenesis of magnesian metavolcanic rocks from the central Klamath Mountains, northern California
W. G. Ernst, B. R. Hacker, M. D. Barton, and Gautam Sen

73–81 Old courses of the New River: Its late Cenozoic migration and bedrock control inferred from high-level stream gravels, southwestern Virginia
Mervin J. Bartholomew and Hugh H. Mills

82–97 Precise chronology of the last interglacial period: ^{234}U-^{230}Th data from fossil coral reefs in the Bahamas
J. H. Chen, H. A. Curran, B. White, and G. J. Wasserburg

98–111 Transition from back-arc to foreland basin development in the southernmost Andes: Stratigraphic record from the Ultima Esperanza District, Chile
Terry J. Wilson

112–124 High-resolution strontium-isotope stratigraphy and biostratigraphy of the Miocene Monterey Formation, central California
Donald J. DePaolo and Kenneth L. Finger

125–135 New U/Pb zircon age constraints on the timing of deformation in north-central Newfoundland and implications for early Paleozoic Appalachian orogenesis
Colleen G. Elliott, Greg R. Dunning, and Paul F. Williams

136–143 Structure of the Kelley Mountain culmination, central Alabama, and implications for the evolution of the southeastern southern Appalachian foreland thrust belt
S. Gregg Erickson

144–154 The neotectonic setting of Puerto Rico
D. G. Masson and K. M. Scanlon

155–156 Bulletin Information

FEBRUARY

157–170 Late Quaternary paleoecology and paleoenvironments of the Central Mississippi Alluvial Valley
P. Daniel Royall, Paul A. Delcourt, and Hazel R. Delcourt

136–143 Structure of the Kelley Mountain culmination, central Alabama, and implications for the evolution of the southeastern southern Appalachian foreland thrust belt
S. Gregg Erickson

144–154 The neotectonic setting of Puerto Rico
D. G. Masson and K. M. Scanlon

155–156 Bulletin Information

FEBRUARY

157–170 Late Quaternary paleoecology and paleoenvironments of the Central Mississippi Alluvial Valley
P. Daniel Royall, Paul A. Delcourt, and Hazel R. Delcourt

171–188 Heterogeneous deformation in a ductile fold-thrust belt: The Proterozoic structural history of the Tusas Mountains, New Mexico
Michael L. Williams

189–209 Reconciliation of two-sided thrusting, burial metamorphism, and diachronous uplift in the Cascades of Washington and British Columbia
Michael F. McGroder

210–220 Mid-Wisconsinan stratigraphy and paleoenvironments at the St. Charles site in south-central Iowa
R. G. Baker, D. P. Schwert, E. A. Bettis III, T. J. Kemmis, D. G. Horton, and H. A. Semken

221–235 Subaerial to submarine transitions in early Miocene pyroclastic flow deposits, southern San Joaquin basin, California
Ronald B. Cole and Peter G. DeCelles

236–253 The tectonic and rheological evolution of an attenuated cross section of the continental crust: Ivrea crustal section, southern Alps, northwestern Italy and southern Switzerland
M. R. Handy and A. Zingg

254–267 Wind-reworked carbonates, Permo-Pennsylvanian of Arizona and Nevada
Jonathan A. Rice and David B. Loope

268–276 Continental detrital zircon in Carboniferous ensimatic arc rocks, Bragdon Formation, eastern Klamath terrane, northern California
M. Meghan Miller and Jason B. Saleeby

277–289 Seismic properties and the origin of reflectivity from a classic Paleozoic sedimentary sequence, Valley and Ridge province, southern Appalachians
Nikolas I. Christensen and Daniel L. Szymanski

290–299 Depositional record of a glacial-lake outburst: Glacial Lake Souris, North Dakota
Mark L. Lord

300–309 Continental-shelf progradation by sediment-drift accretion
Craig S. Fulthorpe and Robert M. Carter

310–314 Accelerator mass spectrometry radiocarbon dating of rock varnish: Discussion and reply
Discussion: *Steven L. Reneau, Theodore M. Oberlander, and Charles D. Harrington*
Reply: *Ronald I. Dorn*

MARCH

315–335 Eustatic sea-level patterns from the Lower Silurian (Llandovery Series) of southern Norway and Estonia
M. E. Johnson, B. G. Baarli, H. Nestor, M. Rubel, and D. Worsley

336–362 The Cowichan fold and thrust system, Vancouver Island, southwestern British Columbia
T.D.J. England and T. J. Calon

363–391 The Arabian continental alkali basalt province: Part II. Evolution of Harrats Khaybar, Ithnayn, and Kura, Kingdom of Saudi Arabia
Victor E. Camp, M. John Roobol, and Peter R. Hooper

392–401 Geochemical and isotopic constraints on petrogenesis: The Serra da Freita pluton, a typical granite body from the Portuguese Hercynian collision belt
R. J. Reavy, W. E. Stephens, A. E. Fallick, A. N. Halliday, and M. M. Godinho

402–414 Seismic reflection and gravity study of proposed Taconic suture under the New Jersey Coastal Plain: Implications for continental growth
R. E. Sheridan, R. K. Olsson, and J. J. Miller

415–431 The Appalachian-Ouachita rifted margin of southeastern North America
William A. Thomas

432–433 Neotectonic joints: Discussion and reply
Discussion: *Adrian E. Scheidegger*
Reply: *P. L. Hancock and T. Engelder*

434–436 Extended period of extinctions across the Cretaceous/Tertiary boundary in planktonic foraminifera of continental-shelf sections: Implications for impact and volcanism theories: Discussion and reply
Discussion: *Joanne Bourgeois*
Reply: *Gerta Keller*

437–438 Bulletin Information

APRIL

439–447 Applications of lead and strontium isotopic relationships to the petrogenesis of granitoid rocks, central Sierra Nevada batholith, California
J. H. Chen and G. R. Tilton

448–460 Buried Vertisols in a lacustrine facies of the Pliocene Fort Hancock Formation, Hueco Bolson, West Texas and Chihuahua, Mexico
Thomas C. Gustavson

461–471 Crystal habit, geochemistry, and cathodoluminescence of magnesian calcite marine cements from the lower slope of Little Bahama Bank
R. P. Major and R. Jude Wilber

472–485 Fault chronology and uplift history of the southern Wind River Range, Wyoming: Implications for Laramide and post-Laramide deformation in the Rocky Mountain foreland
James R. Steidtmann and Larry T. Middleton

486–503 Deformed sedimentary fabrics in metamorphic rocks: Evidence from the Point Lake area, Slave province, Northwest Territories
Timothy M. Kusky and Declan G. De Paor

504–511 Fluvial sediment transport in response to moderate storm flows following chaparral wildfire, Ventura County, southern California
Joan L. Florsheim, Edward A. Keller, and David W. Best

512–521 Events and sea-level changes on Gondwana's margin: The Meguma Zone (Cambrian to Devonian) of Nova Scotia, Canada
Paul E. Schenk

522–537 Continental growth by accretion: A tectonostratigraphic terrane analysis of the evolution of the western and central Baltic Shield, 2.50 to 1.75 Ga
Adrian F. Park

538–558 Jurassic Lake T´oo´dichi´: A large alkaline, saline lake, Morrison Formation, eastern Colorado Plateau
Christine E. Turner and Neil S. Fishman

559–569 Deep-seated fluid involvement in ductile-brittle deformation and mineralization, South Mountains metamorphic core complex, Arizona
Brian M. Smith, Stephen J. Reynolds, Howard W. Day, and Robert J. Bodnar

570 Comments

571–596 Medals and Awards for 1990

MAY

597–614 The Marinduque intra-arc basin, Philippines: Basin genesis and *in situ* ophiolite development in a strike-slip setting
Daniel R. Sarewitz and Stephen D. Lewis

615–624 Anomalous folds associated with the east-central part of the Garlock fault, southeast California
George I. Smith

625–636 Porosity reduction and burial history of siliceous rocks from the Monterey and Sisquoc Formations, Point Pedernales area, California
John S. Compton

637–659 Till-tongue stratigraphy
Lewis H. King, Kåre Rokoengen, Gordon B. J. Fader, and Torgeir Gunleiksrud

660–678 Geology of a Miocene collision complex, Buton, eastern Indonesia
Randall B. Smith and Eli A. Silver

679–699 Late Neogene sequence stratigraphy of a carbonate-siliciclastic transition: Southwest Florida
Mark W. Evans and Albert C. Hine

700–709 An offset Holocene stream channel and the rate of slip along the northern reach of the San Jacinto fault zone, San Bernardino Valley, California
Steven G. Wesnousky, Carol S. Prentice, and Kerry E. Sieh

710–717 Evidence for flexural shear folding associated with extensional faults
W. G. Higgs, G. D. Williams, and C. M. Powell

718–722 Kinematic model of a continuous Heart Mountain allochthon: Discussion and reply
Discussion: *Willis H. Nelson*
Reply: *Thomas A. Hauge*

JUNE

723–736 Incision and morphologic evolution of an alluvial channel recovering from hydraulic mining sediment
L. Allan James

737–750 Amphibolites of the Ashe and Alligator Back Formations, North Carolina: Samples of Late Proterozoic–early Paleozoic oceanic crust
Kula C. Misra and Jonathan A. Conte

751–761 A reinterpretation of the timing, position, and significance of part of the Sacramento Mountains detachment fault, southeastern California
Carol Simpson, Janet Schweitzer, and Keith A. Howard

762–774 Comparative geometry of the San Andreas fault, California, and laboratory fault zones
D. E. Moore and J. D. Byerlee

775–785 Effects of root reinforcement on soil-slip patterns in the Transverse Ranges of southern California
Valery J. Terwilliger and Lawrence J. Waldron

786–794 $^{87}Sr/^{86}Sr$, Na, F, Sr, and La in skeletal fish debris as a measure of the paleosalinity of fossil-fish habitats
Birger Schmitz, Göran Åberg, Lars Werdelin, Peter Forey, and Svend Erik Bendix-Almgreen

795–803 Regional study of mineral resources in Nevada: Insights from three-dimensional analysis of gravity and magnetic anomalies
Richard J. Blakely and Robert C. Jachens

804–816 Quenching and hydroclastic disruption of andesitic to rhyolitic intrusions in a submarine island-arc sequence, northern Sierra Nevada, California
Richard E. Hanson

817–828 Isotopic studies of the Acatlan complex, southern Mexico: Implications for Paleozoic North American tectonics
Pablo Yañez, Joaquin Ruiz, P. Jonathan Patchett, Fernando Ortega-Gutierrez, and George E. Gehrels

829–841 Magmatism and deformation, southern Revillagigedo Island, southeastern Alaska
R. D. Cook, M. L. Crawford, G. I. Omar, and W. A. Crawford

842–848 Depositional setting and regional relationships of basinal assemblages: Pershing Ridge Group and Fencemaker Canyon sequence in northwestern Nevada: Alternative interpretation and reply
Alternative interpretation: *Frederick R. Heck*
Reply: *John S. Oldow, Richard L. Bartel, and Arthur W. Gelber*

JULY

849–860 $^{40}Ar/^{39}Ar$ constraints on the emplacement, uplift, and cooling of the Coast Plutonic Complex sill, southeastern Alaska
D. J. Wood, H. H. Stowell, T. C. Onstott, and L. S. Hollister

861–875 Low-temperature deformation of sandstone, southern Appalachian fold-thrust belt
Schuman Wu and Richard H. Groshong, Jr.

876–885 Paleogeographic and structural significance of an Upper Mississippian facies boundary in southern Nevada and east-central California
Calvin H. Stevens, Paul Stone, and Paul Belasky

886–897 Eruption and depositional facies of the Whorneyside Tuff Formation, English Lake District: An exceptionally large-magnitude phreatoplinian eruption
Michael J. Branney

898–904 Tertiary brittle deformation in the central Sierra Nevada, California: Evidence for late Miocene and possibly younger faulting
Mary M. Lahren and Richard A. Schweickert

905–915 Detrital record of the early Central American magmatic arc: Petrography of intraoceanic forearc sandstones, Nicoya Peninsula, Costa Rica
Neil Lundberg

916–927 Open-system, constant-volume development of slaty cleavage, and strain-induced replacement reactions in the Martinsburg Formation, Lehigh Gap, Pennsylvania
R. P. Wintsch, C. M. Kvale, and H. J. Kisch

928–940 A potassic volcanic front in western Mexico: The lamprophyric and related lavas of San Sabastian
Rebecca A. Lange and Ian S.E. Carmichael

941–952 Paleogeographic implications of an erosional remnant of Paleogene rocks southwest of the Sur-Nacimiento fault zone, southern Coast Ranges, California
John G. Vedder, Hugh McLean, Richard G. Stanley, and Thomas J. Wiley

953–965 Stable-isotope stratigraphy of brachiopods from Pennsylvanian shales in Texas
Ethan L. Grossman, Chuanlun Zhang, and Thomas E. Yancey

966–969 Remagnetization and northward translation of Mesozoic red chert from Cedros Island and the San Benito Islands, Baja California, Mexico: Discussion and reply
Discussion: *John A. Tarduno*
Reply: *Jonathan T. Hagstrum and Richard L. Sedlock*

970–972 Clastic lawsonite, glaucophane, and jadeitic pyroxene in Franciscan metagraywackes from the Diablo Range, California: Alternative interpretation
Loren A. Raymond

973–974 Bulletin Information

AUGUST

975–982 A gravel/diamicton lag on the south Albertan prairies, Canada: Evidence of bed armoring in early deglacial sheet-flood/spillway courses
David J.A. Evans

983–992 Sedimentary and structural characteristics of the Paleo-Tethys remnants in northeastern Iran
Mehdi Alavi

993–1006 Magmatic-tectonic interaction during early Rio Grande rift extension at Questa, New Mexico
Jeff Meyer and K. A. Foland

1007–1016 Kinematic analysis of the San Juan thrust system, Washington
Hirokazu Maekawa and Edwin H. Brown

1017–1031 Mineralogy and geothermobarometry of magmatic epidote-bearing dikes, Front Range, Colorado
Ralph L. Dawes and Bernard W. Evans

1032–1048 Late Wisconsinan, pre–Valley Heads glaciation in the western Mohawk Valley, central New York, and its regional implications
John C. Ridge, David A. Franzi, and Ernest H. Muller

1049–1058 Pliocene–lower Pleistocene chronostratigraphy: A re-evaluation of Mediterranean type sections
D. Rio, R. Sprovieri, and R. Thunell

1059–1072 Influence of layering and boundary conditions on fault-bend and fault-propagation folding
Judith S. Chester, John M. Logan, and John H. Spang

1073–1089 Structural evolution of the Lewis plate in Glacier National Park, Montana: Implications for regional tectonic development
An Yin and Thomas K. Kelty

1090–1103 Submarine processes of the middle Atlantic continental rise based on GLORIA imagery
John S. Schlee and James M. Robb

1104–1108 Positive feedbacks associated with erosion of glacial cirques and overdeepenings
Roger LeB. Hooke

1109–1113 Relation between sediment yield and gradient on debris-covered hillslopes, Walnut Gulch, Arizona
Athol D. Abrahams and Anthony J. Parsons

1114–1120 Conditions leading to a recent small hydrothermal explosion at Yellowstone National Park
Robert O. Fournier, J. Michael Thompson, Charles G. Cunningham, and Roderick A. Hutchinson

1121–1132 Use of longitudinal strain in identifying driving and resisting elements of landslides
Rex L. Baum and Robert W. Fleming

SEPTEMBER

1133–1145 Heart Mountain, Wyoming, detachment lineations: Are they in microbreccia or in volcanic tuff?
William G. Pierce, Willis H. Nelson, Antoni K. Tokarski, and Ewa Piekarska

1146–1159 A ^{36}Cl chronology of lacustrine sedimentation in the Pleistocene Owens River system
Nancy Olga Jannik, Fred M. Phillips, George I. Smith, and David Elmore

1160–1177 Structural, eruptive, and intrusive evolution of the Grizzly Peak caldera, Sawatch Range, Colorado
C. J. Fridrich, R. P. Smith, Ed DeWitt, and E. H. McKee

1178–1199 Field study of a highly active fault zone: The Xianshuihe fault of southwestern China
Clarence R. Allen, Luo Zhuoli, Qian Hong, Wen Xueze, Zhou Huawei, and Huang Weishi

1200–1225 The Ordovician St. George Unconformity, northern Appalachians: The relationship of plate convergence at the St. Lawrence Promontory to the Sauk/Tippecanoe sequence boundary
I. Knight, N. P. James, and T. E. Lane

1226–1238 Intracontinental contraction in western North America: Continuity and episodicity
Mark W. Elison

1239–1251 Jurassic normal and strike-slip faults at Crater Island, northwestern Utah
David M. Miller and Richard W. Allmendinger

1252 Bulletin Information

1253–1257 Archean volcanism and sedimentation in the Bousquet gold district, Abitibi greenstone belt, Quebec: Implications for stratigraphy and gold concentration: Alternative interpretation and reply
Alternative interpretation: *Ghislain Tourigny*
Reply: *William E. Stone*

1258 Bulletin Information

OCTOBER

1259–1269 Recurrent tectonics in a cratonic setting: An example from northwestern Ohio
Charles M. Onasch and Charles F. Kahle

1270–1279 Geochemical investigation of salt-water intrusion into a coastal carbonate aquifer: Mallorca, Spain
René M. Price and Janet S. Herman

1280–1296 Evolution of a Permo-Triassic sedimentary mélange, Grindstone terrane, east-central Oregon
Charles D. Blome and Merlynd K. Nestell

1297–1307 Late Cretaceous and early Tertiary plutonism and deformation in the Skagit Gneiss Complex, North Cascade Range, Washington and British Columbia
Ralph A. Haugerud, Peter Van Der Heyden, Rowland W. Tabor, John S. Stacey, and Robert E. Zartman

1308–1316 Morphology of glacial striae: Implications for abrasion of glacier beds and fault surfaces
Neal R. Iverson

1317–1323 Detrital modes of late Precambrian–early Paleozoic sandstones across Newfoundland: Do they constrain Appalachian tectonic models?
Frederick L. Schwab

1324–1334 Petrogenesis of Early Proterozoic pelitic schists of the southern Black Hills, South Dakota: Constraints on regional low-pressure metamorphism
Thomas S. Helms and Theodore C. Labotka

1335–1345 Sequence stratigraphy of Cenozoic continental rocks, southwestern Montana
Debra L. Hanneman and Charles J. Wideman

1346–1364 Normal faulting and alluvial-fan deposition, basal Windermere Tectonic Assemblage, Yukon, Canada
Peter S. Mustard

1365–1373 Geomorphic controls of the shape and mobility of rock avalanches
Pier Giorgio Nicoletti and Marino Sorriso-Valvo

1374–1376 Origin of the Qattara Depression, Egypt: Discussion and reply
Discussion: *Amin R. Gindy*
Reply: *Claude C. Albritton, Jr., James E. Brooks, Bahay Issawi, and Ahmed Swedan*

1376–1383 Tectonic implications of $^{40}Ar/^{39}Ar$ hornblende ages from late Proterozoic–Cambrian plutons in the Avalon Composite Terrane, Nova Scotia, Canada: Alternative interpretation and reply
Alternative interpretation: *R. A. Jamieson, S. M. Barr, and R. P. Raeside*
Reply: *J. D. Keppie, R. D. Dallmeyer, and J. B. Murphy*

1384 Bulletin Information

NOVEMBER

1385–1394 On the genesis of Archean granite through two-stage melting of the Quetico accretionary prism at a transpressional plate boundary
D. L. Southwick

1395–1404 The uplift of the Sierra Nevada and implications for late Cenozoic epeirogeny in the western Cordillera
J. R. Unruh

1405–1415 Relation of sediment load and flood-plain formation to climatic variability, Paria River drainage basin, Utah and Arizona
Julia B. Graf, Robert H. Webb, and Richard Hereford

1416–1438 Flexural extension of the upper continental crust in collisional foredeeps
D. C. Bradley and W.S.F. Kidd

1439–1457 How complete are Cretaceous/Tertiary boundary sections? A chronostratigraphic estimate based on graphic correlation
Norman MacLeod and Gerta Keller

1458–1475 Kinematic history of a foreland uplift from Paleocene synorogenic conglomerate, Beartooth Range, Wyoming and Montana
P. G. DeCelles, M. B. Gray, K. D. Ridgway, R. B. Cole, P. Srivastava, N. Pequera, D. A. Pivnik

1476–1492 Significance of a late Caledonian igneous complex revealed by clasts in Lower Old Red Sandstone conglomerates, central Scotland
P.D.W. Haughton and A. N. Halliday

1493–1503 Magnetic polarity stratigraphy of Pliocene and Pleistocene fossil vertebrate localities in southeastern Australia
Michael J. Whitelaw

1504–1512 Effects of the Pyrenean collision on the Paleocene stratigraphic evolution of the southern Iberian margin (southeast Spain)
M. J. De Ruig, J. Smit, T. Geel, and H. Kooi

1513–1527 Sedimentation and tectonics of the Sylhet trough, Bangladesh
Samuel Y. Johnson and Abu Md. Nur Alam

1528–1536 A model for Neogene crustal rotations, transtension, and transpression in southern California
Bruce P. Luyendyk

1537–1542 Seismic imaging of extended crust with emphasis on the western United States: Discussion and reply
Discussion: *Christopher J. Potter*
Reply: *Jill McCarthy and George A. Thompson*

DECEMBER

1543–1551 Mud-bank destruction and the formation of a transgressive sand sheet, southwest Florida inner shelf
Randall W. Parkinson and John F. Meeder

1552–1563 The role of solution in the formation of boudinage and transverse veins in carbonate rocks at Rheems, Pennsylvania
Declan G. De Paor, Carol Simpson, Christopher M. Bailey, Kenneth J. W. McCaffrey, Eric Beam, Robert J. W. Gower, and Gulzar Aziz

1564–1575 Paleogeography of some vestiges of Iapetus: Paleomagnetism of the Ordovician Robert's Arm, Summerford, and Chanceport Groups, central Newfoundland
Rob Van der Voo, Rex J. E. Johnson, Ben A. Van Der Pluijm, and Laura C. Knutson

1576–1589 Spatial autoregressive structure in meander evolution
David Jon Furbish

1590–1606 Tectonic subsidence of the early Paleozoic passive continental margin in eastern California and southern Nevada
Marjorie Levy and Nicholas Christie-Blick

1607–1621 Clastic sequences developed during late Quaternary glacio-eustatic sea-level fluctuations on a passive margin: Example from the inner continental shelf near Barnegat Inlet, New Jersey
Gail M. Ashley, Robert W. Wellner, Dominic Esker, and Robert E. Sheridan

1622–1647 Controls on the composition of fluvial sands from a tropical weathering environment: Sands of the Orinoco River drainage basin, Venezuela and Colombia
Mark J. Johnsson, Robert F. Stallard, and Neil Lundberg

1648–1662 Magnetostratigraphy and paleomagnetic poles from Late Triassic–earliest Jurassic strata of the Newark basin
William K. Witte, Dennis V. Kent, and Paul E. Olsen

1663–1666 Structure of the Kelley Mountain culmination, central Alabama, and implications for the evolution of the southeastern southern Appalachian foreland thrust belt: Discussion and reply
Discussion: *William A. Thomas and James A. Drahovzal*
Reply: *S. Gregg Erickson*

1667 Erratum

1668 Bulletin Information

1669–1700 1991 Indexes
